***Thrombosis Journal* is an open access, peer-reviewed, online journal that publishes biologically significant findings with clinical relevance in the field of acute and chronic vascular thrombotic disease.**

*Thrombosis Journal* covers a range of topics including aspects of clinical and basic research, new methodology, case reports and reviews in all areas of thrombosis (platelets, coagulation fibrinolysis and vessel wall, risk factors for thrombosis and atherosclerosis) and related pathologies such as dyslipemia, hypertension, diabetes, immunology and obesity.

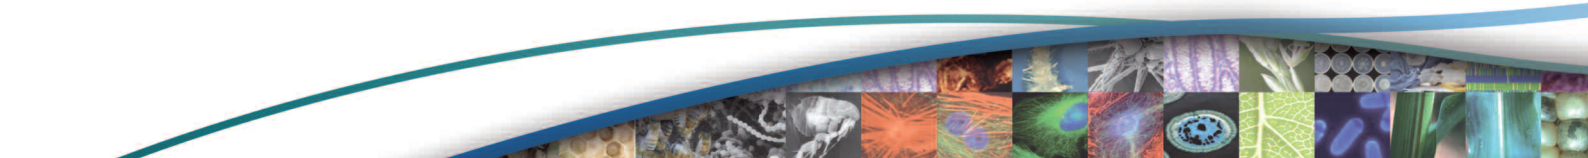

The journal also publishes research on the diagnosis of arterial and venous thrombosis, new antithrombotic treatments, new developments in the understanding, diagnosis and treatments of atherosclerotic vessel disease, relations between hemostasis and vascular disease.

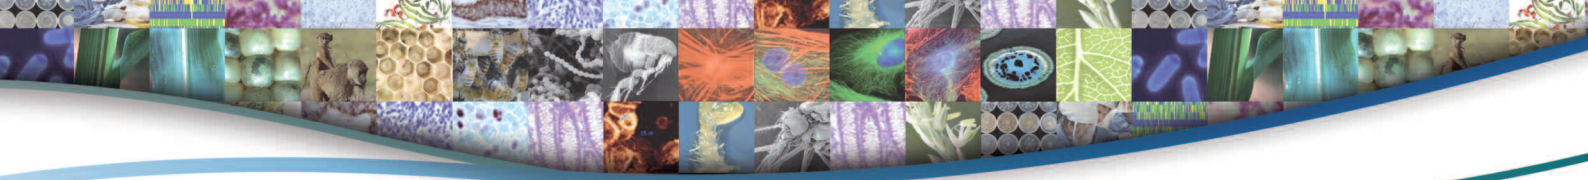

The journal considers the following article types: original clinical investigation, case reports, latest therapeutic developments, original basic research articles, reviews and book reviews. For further details, see [www.thrombosisjournal.com/info/about/](http://www.thrombosisjournal.com/info/about/).

### **Reasons for publishing in *Thrombosis Journal*:**

- All articles published in the journal are open access; universally accessible online without charge.
- High visibility for your work - anyone with Internet access can read your article, free of charge.
- Included in PubMed - making your work easy to find, read and cite.
- Articles are published immediately upon acceptance.
- Authors retain the copyright of their articles.
- Electronic submission and peer-review makes the whole process of publishing your article simple and efficient.
- Publishing online means unlimited space for figures, extensive datasets and video footage.
- Professional formatting meets the standards expected by researchers.
